HOBBIES AND INTERESTS

Playing games

Doing mini projects

Watching Movies

MINI PROJECTS

- **TV Remote control appliances**-In this we can control any of the home appliances using TV Remote.
- **TV Remote Jammer**-In this we can jam the TV remote signals using the 555 timer and the IR led, so that we can have some fun.
- **Proximity detector**-Using this we can detect the presence of a person or any object.
- **Clap control switch** – this is done using the IC 7490 decade counter and a condenser mic and 555 timer is the main component in this circuit to get the triggering.
- **Automatic light** - In this project the light automatically turns on when it is dark and automatically turns off when it is day, the main component is the LDR.
- **FM Transmitter** - In this project we can transmit the data using the FM band signal at a certain frequency and it is limited to 100mts only and I am working on it to increase the range of the transmitter.
